

A letter from St Francis parents - July 2015

“Dear David and all members of staff at St Francis,

This is the end of an era for us and it only seems appropriate to write to you all and express our deep thanks and appreciation for all that you have done for both our children.

Over the last eleven years they have been consistently happy and have always felt part of the wider St Francis community so that it has become a very real and large part of who they are as young people. They have felt loved, cared for, and appreciated for who they are which has enabled them to grow develop and learn. This has been true of all members of staff whether working in the classroom, dining hall, grounds or offices. This seems to us a particularly unique and exceptional part of what makes St Francis such a special place.

The intimacy of their surroundings and the focus on the individual child has given our children the opportunity to explore and develop their own talents. This has been a very personal and human response from caring and thoughtful professionals.

As this part of their lives close, we hope and trust that they will take these wonderful experiences and memories into the future as a firm and lasting foundation.

Thank you everyone for all that you have done for our family and every best wish.”
